Directions for Use

Surface Preparation:
Where VOC limits allow a maximum of 4.5 #/US Gal. for multi-stage systems, reduce DBU Color 100% with DRR Reducer or DBC Color 100% with DT Reducer. Refer to the Product Information Bulletin of the color system for its application, dry times, and blend recommendations. See P-175CA for DBC (5% addition of DX57 to ready-to-spray DBC required) and P-152 for DBU Color.
