Product Information

D820 Plastic Adhesion Promoter

Product Description

D820 is for use on the variety of plastic substrates found on motor vehicles. D820 provides adhesion for subsequent Global 2K primers and topcoats.

Preparation of Substrate

- Wash all surfaces to be painted with soap and water. Degrease all surfaces with D846 Degreasing Agent for Plastics (See EU-134 Global Cleaners bulletin for usage instructions).
- Wash off residue and dry thoroughly before cleaning with appropriate Global substrate cleaner. The use of a tack rag is recommended.
- Wet flat with European P600 / U.S. 400 grade paper (use finer grit paper for softer plastics), and clean again with D846 Degreasing Agent for Plastics.
